THE WIDE WORLD.

THIS DAY'S DESPATCHES

The Silver Question.

Special to THE TIMES.

LONDON, June 8.—The Pall Mall Gazette states that Delmar in his interview said that President Cleveland left the practical treatment of the silver question to Secretary Manning, whose mind was fixed on a gold doctrine, and who was using all opportunities to discourage the monetization of silver. Delmar said that Manning in his report for the fiscal year ending the 30th June, 1885, will probably recommend the repeal of the Bland act. This recommendation will be supported by both the treasurer and comptroller of the currency, and after them by the entire eastern press and banks. In his annual message to Congress Delmar predicted that President Cleveland would make a similar recommendation. Delmar believed the effect of the demonetization of silver in America, upon Indian coinage, would be a reduction in value of the rupee, now worth 25c. to 1s., and perhaps even lower. To save India from disaster he said two measures could be adopted. Mints in England could be reopened to free coinage of silver and Indian mints closed to silver.

The West End of London Flooded.

Special to THE TIMES.

LONDON, June 9.—Great damage was caused this evening in the most aristocratic portion of London by the bursting of a sewer which had been overstrained by the recent storms. Scores of houses on the West End have their basements flooded and there is three feet of water in many of the fashionable stores. The barracks of the Guards is seriously damaged. The residence of the United States Minister Phelps, at 31 Lowndes square is flooded as is also the residence of the Earl of Kimberly, Secretary of State for India, at 350 Lowndes square. The House of Lords was startled by the arrival of a courier sent to inform Lord Kimberly that it was impossible to prepare his dinner as the basement of his house was flooded. Many of the Peers hurried to their houses and score of them found their residences in a similar plight.

A Train Wrecked and Robbed

Special to THE TIMES.

ST. PETERSBURG, June 8.—A terrible accident occurred on a railway from Kastaff to Rostoff on the river Don. A bar of iron was placed across the track by robbers, and the train, which came along, was thrown from the rails and demolished. The number of killed and wounded was seventy. The robbers, who were waiting for the smash up, plundered the corpses. The wounded and other survivors were completely terrorized and could make no resistance.

Cholera in Valencia and Madrid.

Special to THE TIMES.

LONDON, June 8.—The death rate from cholera in Valencia has doubled. The people are alarmed and are fleeing from the infected districts. Notwithstanding reports to the contrary it is now absolutely asserted that there is no genuine cholera in Madrid. The Mayor of Madrid has issued a proclamation ordering the enforcement of sanitary measures in stables, houses, etc. He has also enjoined cleanliness in the streets and houses. He is offering gratuitous analysis of suspicious food.

The Dowry to Be Opposed.

LONDON, June 8.—Labouchere, Radical, this afternoon, in the House of Commons, gave notice of his intention to oppose the proposed Parliamentary grant of $30,000 per annum as a dowry to Princess Beatrice on the occasion of her marriage.

The Cholera Scare in Europe.

Special to THE TIMES.

MADRID, June 9.—Special wards in the hospitals have been assigned for suspected cases of cholera. The authorities are visiting the poorer quarters of the city and attending to the disinfection of houses. Vessels from Valencia are subjected to three days quarantine. At other Spanish ports and in France, Italy and Germany quarantine regulations are enforced against vessels from Valencia.

Fatal Cholera Cases in Madrid.

Special to THE TIMES.

MADRID, June 8.—Despite the repeated denial of the authorities it is now known that there have been eleven cases of Asiatic cholera in this city and two deaths from that disease. Cholera has also broken out in Castleton de la plana, where there have been fourteen cases.

Temporary Secretary of the Navy.

Special to THE TIMES.

WASHINGTON, June 8.—The president to-day designated Commodore D. B. Harmony, to act as secretary of the navy in absence of Secretary Whitney. The latter is going to New York for a few days.

Judge Lynch Again at Work.

Special to THE TIMES.

JACKSONVILLE, Fla., June 8.—John Evans, a negro from the convict camp, near Live Oak, brutally assaulted an aged white woman, named Redding, last Wednesday. To-day 200 citizens went to the camp, took Evans away and lynched him.

President of the Exhibition of 1889.

Special to THE TIMES.

PARIS, June 9.—M. DeLesseps has been appointed President of the exhibition of 1889.

A Bandit Chief Dead.

Special to THE TIMES.

HAVANA, June 9.—The bandit chief Alonga was found dead yesterday near Palmillas, after an encounter with the civil guards.

Death of Archbishop Bourget.

Special to THE TIMES.

MONTREAL, June 8.—Monsigneur Bourget, Roman Catholic Archbishop, died this afternoon, aged 86.

Riel's Sympathizers in the Commons.

Special to THE TIMES.

OTTAWA, June 8.—In the House of Commons to-day attention was called to the statement that Riel was kept manacled. Sir John Macdonald said he would inquire into the matter.

General Grant's Condition.

Special to THE TIMES.

NEW YORK, June 9.—General Grant did not sleep until late last night and slept nearly eight hours before showing this morning. He suffered no pain in the night and healthy his throat appears to be better. The glandular swelling is not quite so pronounced.

GLADSTONE RESIGNS.

His Resignation to be Handed to the Queen at once.

Special to THE TIMES.

LONDON, June 9.—A Cabinet council was convened at noon and was in session until 1:15 o'clock. It is understood the situation was thoroughly discussed. It was decided that, in view of the defeat last night on the budget, it would be inconsistent for the members of the Cabinet to remain longer in office. It was resolved that their resignation be tendered to the Queen at once.

The Defeat Causes Surprise.

Great surprise is expressed at the action of the government. It was expected that efforts would be made last night to prevent the proposed increase of Excise upon beer and spirits but there was no ground for the rumor that the opposition would overturn the cabinet. It was rumored as extremely doubtful whether ministers could resign and leave unfinished so many important matters relating to both home and foreign affairs. Nothing more untoward than the present crisis could have occurred. Apparently men of all parties are of the opinion that the government should at least remain in power provisionally. That is until after the general election.

THE RESIGNATION ANNOUNCED.

Special to THE TIMES.

LONDON, 4 p. m., June 9.—Mr. Gladstone has just announced to the House of Commons and Parliament that he and his cabinet have placed their resignation in the hands of the Queen.

Gladstone's Resignation Affects all Stocks.

Special to THE TIMES.

LONDON, June 9.—The demise of the cabinet has caused a feverish feeling on the stock exchange. Consols declined 3-16, while Russian securities are one-half lower. In all provincial exchanges there is a weak feeling. In all financial circles the feeling more marked, there is also a decline in government bonds.

THE GRAND OLD MAN ELOQUENT

Appears to-day in the Commons. A Firm Man Perfectly Undisturbed.

Special to THE TIMES.

LONDON, June 9.—Mr. Gladstone, a few minutes after 4 o'clock, this afternoon, entered the House of Commons. His appearance was that of a firm man, perfectly undisturbed. He at once proceeded to the Speaker's desk and entered into conversation with Mr. Peel. During the conversation the Premier was evidently in bright spirits, and he was loudly cheered by the Radical members of the House. When he showed himself in his usual place his very self-possession seemed to enthuse his admirers. The chamber was fairly rent with cheers and the applause became an ovation. At last Mr. Gladstone arose in deference to the greeting. He said the cabinet on assembling to-day thought they were under an obligation to submit a dutiful communication to the Queen. (Cheers.) It would be premature on his part to enter into particulars concerning the nature of that communication just now. He would say, however, that as on former occasions a few days must elapse before the result of that communication could be arrived at so as to be made known to the House. During the interval, Mr. Gladstone concluded, the House would follow its usual custom in refraining from the transaction of ordinary business and he would move that the House on rising to adjourn would stand adjourned until Friday next at 5 o'clock. The House of Commons and the House of Lords adjourned accordingly until next Friday.

The Irish View of the Defeat.

Special to THE TIMES.

DUBLIN, June 9.—The Freeman's Journal to-day, commenting on the defeat of the government last night on the budget, says the defeat is due to the action of the Parnellites in refusing to uphold a cabinet from which they received nothing but broken promises, and from which Ireland could expect nothing but injustice, as was foreshadowed in the proposed attempt to again saddle upon Ireland the iniquitous provisions of the Crimes Act. The result of the vote last night will cause Earl Spencer and his lieutenant at the castle to quit Ireland, leaving behind them the memory of an administration which was pre-eminently noted for its cold blooded brutality, its frigid and calculating injustice.

The Times says the Government Must not Resign.

Special to THE TIMES.

LONDON, June 9.—The Times in an editorial says: The resignation of the cabinet in the present condition of affairs must not be hastily decided upon. The government's duty is to consider whether such a course would not be wrong to the country financially. It might easily be arranged by abandoning the increase in the duties on flour and spirits without leaving Childers a large deficit to carry forward to next year.

Stocks Tumbling Down.

LONDON, 6 p. m., June 9.—British consols have fallen one-eighth since closing of market this p. m.

The London Money Market.

Special to THE TIMES.

LONDON, June 9.—5:30 p. m.—The defeat of the government has produced great depression on the stock exchange. At 12:30 p. m.—Consols opened at 99 9-16 for both accounts. At 4 p. m.—Consols, 99⅝ for both accounts.

Another British Fishing Smack Captured

Special to THE TIMES.

BERLIN, June 9.—It is reported that a German dispatch boat the Pommerania has captured and towed to Wilhelmshaven another British smack for fishing in prohibited waters.

The Adams-Coleridge Case Settled.

LONDON, June 9.—It is announced today that the terms of settlement of the slander case, Chas. Warren Adams against Lord Coleridge, have been arranged as follows: The Lord Chief Justice settles the income of six hundred pounds yearly on his daughter, Miss Mildred, on the occasion of her marriage to Mr. Adams. The legal disputes are to be referred to arbitration.

DECLINES TO ACCEPT.

The Tories will Decline Accepting Office.

LONDON, June 9.—It is reported to-day that the Tories will, in case the cabinet resigns, refuse to accept office. If this be true the government will then finish the supply measure and drop all bills to which strong opposition is made, and dissolve.

The London Standard on the Political Situation.

Special to THE TIMES.

LONDON, June 9.—The Standard in an editorial this morning says: We cannot believe that the ministers will leave their office. They have received a mortal stroke, but they need, whether they like it or not, spare no longer to until the general election. This very blunder renders their impeachment, everything is published and hangs in suspense. What cabinet can succeed? If the Conservatives are to rule they must have a majority, for which they must look to their constituencies. An election now is impossible; the government cannot retrieve their loss, but can at any rate prove themselves conscious of their duty to the country by struggling manfully in their present painful position. Party life must remain in suspense until the election. The Standard further says that Earl Spencer wanted the duration of the Crimes Act to be three years, but a compromise of two years was agreed. The bill, drafted under Earl Spencer's direction, has been considered by the cabinet. It is a comprehensive measure of local self government for Ireland including the abolition of the viceroyalty.

Another Rob Hang a Couple of Prisoners.

Special to THE TIMES.

GALVESTON, TEXAS, June 8.—A Bonham, Texas special says: At 3 o'clock this morning a masked mob of one hundred men assaulted the jailor at the point of Winchester rifles and demanded the keys of the prison. The spokesman of the party received the keys and proceeded to the cell occupied by Ed and Sam Dyer, charged with the murder of Sheriff Bagsdale and Deputy Sheriff Buchanan, on the 15th ultimo. The prisoners were brought out, carried a few hundred yards from the jail and hanged to a tree.

Serious Famine in West Virginia.

Special to THE TIMES.

PARKERSBURG, W. Va., June 9.—The situation in Jackson county is becoming serious; hundreds of families are on the verge of starvation and unless aid is speedily extended by the remainder of the state or the outside world the most disastrous results may be expected. Some of the more influential and influential people of the county, and others who believe the condition of the inhabitants to be exaggerated have heretofore denied the reports that have from time to time been published, stating that things could be tided over till the new crop could be raised. But now the reports prevails, and public meetings are being held in all the villages. The local papers have printed accounts of the meetings were held at White Pine and New Kentuck at which scores of citizens representing their respective neighborhoods testified as to the extent of the famine. Many pitiful stories are being told. Hiram Cobb, owner of a mill, said the people would come at the rate of a dozen a day, after walking a distance, begging for a pint or quart of meal. Sometimes bringing a half peck of grain or a few ears of corn to be ground. He knew men who had gone four or five days without food and he himself would soon be a sufferer.

Extending the Cable System to Uruguay.

Special to THE TIMES.

MONTEVIDEO, via GALVESTON, June 8.—The South American Commission was cordially received by the government here. It has been asked to use its influence in favor of extending the American cable system to Uruguay. The commission will ask the United States government to exert its influence to this end. The commission will leave here for Rio de Janeiro on the 18th inst.

American Inspectors at Canadian Ports.

WASHINGTON, June 8.—The Secretary of State has received a note from the British minister at Washington, expressing the thanks of the Canadian government for the courtesy shown by the Treasury department in sending inspecting officers, at the request of steamboat owners, to Canadian ports to avoid the delay and delay which would occur if the inspections were to take place in the United States, and saying that there is no objection to American inspectors visiting Canadian ports for the purpose of making such inspections.

The Absconding Teller.

Special to THE TIMES.

MONTREAL, June 8.—A warrant for the arrest of Scott the absconding teller of the Manhattan Bank, was issued to-day. Detectives have located him probably at Prescott, Ont.

France and China Agree to a Treaty of Peace.

Special to THE TIMES.

SHANGHAI, June 9.—The disputed points having been agreed to a formal treaty of peace between France and China will be signed next Tuesday.

The Sealing Season.

The sealing season off Cape Flattery is over. The Port Townsend Argus says that while it has been usually profitable, owing to the low price demanded for skins and the high price demanded for skilled labor in taking them, upon the whole the catch has been fair, and generally results satisfactory. There have been taken about 2300 skins, divided as estimated below, approximately, between seven schooners, viz: The Teaser, 542; Granger, 750; Amethyst, 1150; Sapphire, 1000; Ocean Spray, 600; Ocean Foam, 300; Lotitia, 650.

The Island Railway.

In giving the names of the officials of the Island railway in our report of the progress being made on the McElhanney contract, we inadvertently omitted that of Mr. Joseph Hunter. This gentleman is chief engineer of the road, and as such the general supervision of the work and a large proportion of the responsibility falls upon his shoulders. He is well fitted for the discharge of the onerous duties of his position.

OUR ANNIVERSARY BIRTHDAY

With to-day's issue THE TIMES enters upon the second year of its publication. It being the anniversary of our birthday, we trust our readers will pardon us for briefly alluding to our past career and future prospects.

The year that has just closed has been an eminently satisfactory one for the conductors of THE TIMES. In launching the enterprise of publishing a live, readable, newsy evening newspaper upon the journalistic field in this city, the promoters of the scheme were laughed at, many wagged their heads and prophesied for the venture a short-lived career. Several of our contemporaries never allowed an opportunity to pass in giving publicity to foundationless rumors—in many instances manufactured by themselves—concerning the stability of THE TIMES. Notwithstanding all this, and the great difficulties always to be encountered in establishing a daily newspaper—and more especially so where the resources for obtaining news is so limited as it is in this city, and the utter impossibility existing of obtaining an extensive advertising patronage in the short space of one year—the success of THE TIMES has been perfectly phenomenal beyond question unprecedented in the history of journalism on the North Pacific coast.

We felt that the citizens of Victoria, as well as those of the province, would extend a liberal support to an independent newspaper, which was in no wise hampered by the ties of party lines. Entertaining this belief, and at an enormous expense for so young a journal, arrangements were closed with the Associated Press of the United States and Canada for supplying THE TIMES' readers with the news of the day from all parts of the world. Our patrons desired news; a resolve was made that each evening the reader would learn of the current events of the globe for that day. The effort to accomplish this daily herculean task—excepting when the wires were down—has been successfully carried out. THE TIMES as a news purveyor is already universally acknowledged to be in the front rank of journalistic enterprise in the Northwest.

The circulation of the daily edition in the city of Victoria, the cities of New Westminster and Nanaimo, and throughout the province generally, is already extensive and constantly increasing. Everywhere it is received with great acceptance. It is eminently the peoples' paper, and as such its popularity, is unbounded. All of which augers well for its future career, for neither pains, labor, nor expense, will be lacking in maintaining for THE TIMES the enviable reputation it now enjoys, and the position it has attained of already being one of the leading newspaper in British Columbia.

THE WEEKLY TIMES—not yet a year old—is claimed by many to be equal in every respect to the best of eastern weeklies. If the success which has already attended its career be accepted as a basis for this conclusion there can be no room for doubting that claim, for everywhere within this province, no matter how remote the post office, or trading post, already even there is THE WEEKLY TIMES to be found. Great care is observed in the preparation of our weekly edition. It is specially gotten up for the family circle, where, we have the most substantial reason for knowing, it is a very welcome weekly visitor.

To advertisers, who wish their announcements to receive the greatest possible publicity, by being read by the entire community, no other medium in this province offers the same opportunities or inducements. The circulation of THE TIMES is now very extensive in all parts of the province; the rates charged are liberal. These are facts which cannot be disputed and should be borne in mind by the business men, and all such as are desirous of being known throughout the length and breadth of our own province.

THE general course to be pursued hereafter by THE TIMES will be enunciated in to-morrow's issue.

AWARDING TENDERS.

If THE TIMES is not misinformed, a system of receiving tenders and awarding contracts for public works was in vogue during the reign of the WALKEM government, which probably was in general favor, and which to some extent was introduced in consequence of the criticisms of the *Colonist*. A box was sealed up, and into it the tenders were dropped, notice being given when the box was to be opened, thereby giving tenderers an opportunity to be present when the tenders were examined. This course prevented reflections being made against the officer having them in charge. We wish it to be distinctly understood that we do not for a moment accuse any one of collusion in such matters, as we feel satisfied that the gentlemen connected with that department would not stoop to anything of the kind; but certainly the plan of opening the tenders in public would give greater satisfaction and remove the chance of any insinuations being made as to favoritism. THE TIMES is astonished that the *Colonist* should have lost sight of this matter. The newsboy at our elbow reminds us that its friends are now in power; perhaps there lies the difference.

IT is reported that Lieut. Governor MASSON is about to visit Europe on three months' leave of absence.

Le Canadien says that General MIDDLETON and Hon. Mr. CARON are to be knighted.

MESSRS. CHRISTOPHER ROBINSON, Q.C., and B. B. OSLER, Q. C., of Toronto, will be crown prosecutors in the trial of LOUIS RIEL.

THE extra clerks in the Privy Council are almost as badly off as the workmen on the Canadian Pacific railway. They have received no pay for three months.

ALREADY two million dollars in cash have been expended on the Northwest rebellion. This means an additional tax this year of two dollars each on every head of a family in the Dominion of Canada, and the end is not yet.

CAPTAIN LANDRY, M. P. for Montmagny, has been offered the command of the Wimbledon team this year; and CAPTAIN CLOSE, of the Nineteenth (Winnipeg) Battalion, who was wounded at Fish Creek, has been offered the second command. CAPTAIN CLARKE is not yet awake of the proffered honor.

A WINNIPEG man during the boom poured five dozen of champagne into a bath tub for his admirers. But a party of New York swells have gone one better, by using bottles of extra dry as pins in a bowling match. Those who visit Cleopatra and the other swells of history with their molten jewels of great price for drink, and nightingale's tongues for luncheon.

"There are signs," says the *Saint James Gazette*, "that the long-expected revival in electric lighting has at length arrived. The government seem to have begun in earnest to provide their ships with strong searchlights to protect them against night-attacks, and, as in case of the *Colossus*, with incandescent lights below to enable the men to fight their guns with comfort and safety by night or day. For these and other purposes, the Brush Company alone have 58 dynamos under construction for the government."

SOME cabinet changes of a temporary character have been determined upon by the government says the Ottawa *Free Press*. SIR DAVID MACPHERSON leaves the government professedly on account of ill-health and seeks seclusion at some famous baths in Germany. His speech in the senate on Thursday was a valedictory address. It is understood that MR. McLELAN will be acting Minister of the Interior. SIR JOHN MACDONALD finds it convenient to be relieved of the Indian branch. The Indians and the Northwest Mounted Police will be transferred to the custody of MR. CHAPLEAU, the Secretary of State. The very nature of these changes are such not only that they cannot be permanent. These are changes but not changes for the better.

DYSPEPSIA.

Sedentary habits, mental worry, nervous excitement, excess or improper use in eating or drinking, and various other causes, induce Constipation followed by general derangement of the liver, kidneys, and stomach, in which the disorder of each organ increases the infirmity of the others.

The immediate results are Loss of Appetite, Nausea, Foul Breath, Heartburn, Flatulence, Dizziness, Sick Headaches, failure of physical and mental vigor, distressing sense of weight and fullness in the stomach, and increased Costiveness, all of which are known under one head as Dyspepsia.

In every instance where this disease does not originate from scrofulous taint in the blood, AYER'S PILLS may be confidently relied upon to effect a cure. Those cases not amenable to the curative influence of AYER'S PILLS alone will certainly yield if the PILLS are aided by the powerful blood-purifying properties of AYER'S SARSAPARILLA.

Dyspeptics should know that the longer treatment of their malady is postponed, the more difficult of cure it becomes.

Ayer's Pills

Never fail to relieve the bowels and promote their healthful and regular action, and thus cure Dyspepsia. Temporary palliatives all do permanent harm. The fitful activity into which the enfeebled stomach is spurred by "bitters," and alcoholic stimulants, is inevitably followed by reaction that leaves the organ weaker than before.

"Costiveness, induced by my sedentary habits of life, became chronic; AYER'S PILLS afforded me speedy relief. Their occasional use has since kept me all right." HERMAN SNEDEKER, *Newark, N. J.*

"I was induced to try AYER'S PILLS as a remedy for Indigestion, Constipation, and Headache, from which I had long been a sufferer. I found their action easy, and obtained prompt relief. They have benefited me more than all the medicines ever before tried." M. V. WATSON, *152 State St., Chicago, Ill.*

"They have entirely corrected the costive habit, and vastly improved my general health." REV. FRANCIS B. HARLOWE, *Atlanta, Ga.*

"The most effective and the easiest physic I have ever found. One dose will quickly move my bowels and free my head from pain." W. L. PAGE, *Richmond, Va.*

"A sufferer from Liver Complaint, Dyspepsia, and Neuralgia for the last twenty years, AYER'S PILLS have benefited me more than any medicine I have ever taken." P. R. ROGERS, *Needmore, Brown Co., Ind.*

"For Dyspepsia they are invaluable." J. T. HAYES, *Mexia, Texas.*

Certificate of Incorporation.

WE, THE UNDERSIGNED, hereby certify that we desire to form, under the provisions of the "Companies Act, 1878," a Company, as hereinafter mentioned.

1. The corporate name of the Company shall be "The Victoria Times Printing and Publishing Company, Limited Liability."

2. The objects for which the company shall be formed are:—

(a.) The printing and publishing of a daily and weekly newspaper.

(b.) The carrying on of a general printing and publishing business.

(c.) The renting, purchasing, and holding of such land and buildings as may be found necessary and convenient for the purposes of the Company.

(d.) The doing of all such things as are incidental or conducive to the attainment of the above objects.

3. The capital stock of the company shall be $20,000, divided into 200 shares of $100 each.

4. The time of the existence of the Company shall be fifteen years.

5. The number of the Trustees shall be three, and their names are John Campbell McLagan, John Grant and William Templeman, all of the City of Victoria, who shall manage the affairs of the Company for the first three months.

6. The principal place of business of the Company shall be at Victoria.

7. A stockholder shall not be individually liable for the debts or liabilities of the company, but the liability of a stockholder shall be limited to his proportion (based upon the amount of his respective shares) to assessments levied, and the charges thereon if advertised as delinquent, during the time that he is a stockholder, upon a share or shares of which he is the holder, as shown by the stockholders' register book of the Company; assessments and charges thereon when taken collectively shall not exceed in the aggregate, the value in dollars printed or shown upon such share when issued.

Dated at Victoria, this thirtieth day of April, one thousand eight hundred and eighty-five.

After a Theological Discussion.

[The Judge.]

If you will go to hear Bob Ingersoll on "Orthodoxy," don't go home and air his ideas to your wife, more especially if she happens to be a minister's daughter.

How to Run a Slow Race.

[Texas Siftings.]

Two sporting characters, A and B, proposed to run their horses, the slowest to win. They tried to make the race, but did not succeed, for as each rider wanted to come in last, they went slower and slower, and finally came to a standstill. They did not know how to run the race until a happy thought occurred to one of them.

They simply swapped horses. A rode B's horse and B mounted A's horse. Each rider then did his best to make the horse he was on go as fast as possible, so as to come in first, so that his own horse, which the other man was riding, would be beaten, thereby winning the money as the slowest horse.

He was Quiet on One Point.

[Atlanta Constitution.]

"Pinder," severely demanded Mrs. Fitzgocber, "did you take your medicine last night?" "Yes, ma'am," sweetly answered that cherub. About an hour afterward the lady found the mixture of compound bitterness that had been intended for Foster's cold lying snugly under the washstand. "Pinder!" she yelled. "Yes, ma'am." "I thought you told me you had taken your medicine." "So I did, ma; but you didn't ask me where I took it to, so I kept quiet on that point." But he didn't keep quiet on the point of his rod.

A Warning to Whistlers.

[Puck.]

A Vermont man whistled for what he thought was his dog in the distance.

But it proved to be a bear.

Things to Do and to Know.

The Philadelphia Press says a bad road is a bad introduction to a neighborhood.

The agricultural products of Illinois amount to over $200,000,000 a year.

The common, plain-leaved parsley is best for flavoring, the curly-leaved for ornamenting dishes.

Well-sifted coal ashes kept dry will be valuable next summer for use in mixing paris green to dust on potato vines.

Dr. Sturtevant, of the New York Agricultural station, has been experimenting on the selection of kernels of corn for seed. He finds that the small tip kernels of an ear of corn are just as good for seed as any other.

An old poultry raiser, who believes in milk for fowls, says: "It is both meat and drink. Some of the finest chickens I ever saw were raised upon the free use of milk with their food. Hens lay as well, or better, when furnished with this than upon any other known article of food offered them."

The only true kinds of ever-blooming roses are the monthlies, and, remember, they are not hardy in the north without careful protection, and not always with it. The hybrid perpetuals, moss roses and climbers, are the only hardy roses, and these bloom fully but once in a season.—(Rural New Yorker.

Meadows and pasture need refreshing with new seed, as well as with manure, at intervals. The seed should be sown with each dressing of compost. Repeated cutting and pasturing weakens the grass and destroys some of it, and the thick, healthy sod is only kept up by occasional reseeding.

An excellent relish for the farmer's breakfast is young spring radishes. He ought soon now to be enjoying them. They can be raised in a box in the kitchen window, or in a hot-bed covered with an old window-sash. The children can raise them if they are taught how, and they will delight to do it. Plant the small, flat, scarlet variety.

It is much to be wished that every neighborhood of farmers would institute and maintain a farmer's club for the discussion of the countless questions which continually come up relating to their business in all its branches, stages and connections. Definite conclusions may not be often reached, but all find both profit and pleasure in the interchange and conflict of views. The isolated life of the farmer needs such encounters with the faces of friends. It is a platform on which woman can appear with advantage to herself and all her friends, and the oftener she participates in the discussions the better for all the interests in question.

THE CAT AND THE BOOTJACK.

Burdette on the Deficiencies of the Leading American Humorist.

[Original.]

All over this broad land there goes up a cry for the suppression of cats. Only one dissenting voice is heard, that of Henry Bergh, pleading for the protection of cats and the extermination of man. But the rest of us hate that noble animal, the cat. She rarely catches mice. She runs away in terror from a gray cellar rat. And a barn rat that can't whip his weight in cats is no longer admitted into good society, and his disgraced name is scratched off the assembly books. But, nevertheless, the tribe of cats is on the increase. It multiplies on the face of the wood shed and replenishes the back fence and the kitchen roof in the face of the hatred of man.

Why is this?

Briefly stated, the cause is found in the decadence of the bootjack.

From the date of the confusion of tongues at Babel, the bootjack has been the sole effective weapon against cats. No other weapon that has been formed against them has prospered. Shot guns have scattered and failed. Water pitchers only smash themselves against the woodshed door or the division fence, and brickbats bang against the alley fence and rebound into the geranium bed. But the boot jack, with unerring instinct, flies on wings of hate straight at its natural enemy, catches him amidship every time, knocks a "howl" out of him as long as a centennial poem, and demolishes him. Never yet was bootjack fired out of a window by the hand of man that did not knock some prowling cat into the land of the Forthwith. Hence, with the decay of the bootjack the cat has come on top.

"But," says the sceptic, "bootjacks are as numerous and accurate to-day as ever they were. Your argument fails because of its faulty premise."

Oh, simple minded man! Oh, feeble one, slow to believe anything save that which is palpably incredible, you have been fed upon funny papers. The "leading American humorist," whose name is Legion, lives in the dim traditions of the past, so far as this cat business is concerned. He reads about the bootjack in the days of its glorious precision, in the far away times of Doesticks, and as he weaves his own stories of the cats of to-day he brings in the unerring bootjack. He deceives you. The "leading American humorist" does not keep abreast of the times, as does the dime novel writer. When the dime novelist writes a romance of the plains to-day, he arms his cowboy or scout with a Winchester. He knows that the squirrel rifle of Leatherstocking, with its long wooden stock, small bore, bullet patches, hickory ramrod and powder horn is a thing of the past. The humorist, however, tries to drag that dead past into the light and life of to-day when he writes of cats, and so he deceives you.

Now, who wears "leg boots" in the cities to-day? Not one man in several. Of what use, then, are bootjacks? Obviously, of no use. They are discarded. They are no longer an article of household furniture. They are antiques, to decorate and hang up on the parlor wall. Consequently the cats have their own sweet way, and when a man would slay one there is no death-dealing bootjack at his side. We all wear shoes in these days, in the cities. And it is in the cities that the great cry for the suppression of the cats is heard. In the smaller towns of the West and South, where "leg boots" are still largely worn, the bootjack flourishes and the subdued catchehaves himself. But where there are no bootjacks the cats stuff the ballot boxes and control the returns.

One more trait will you how faithfully the "leading American humorist" clings to the traditions of cats, how often he alludes to their assembling on the roof of the "wood shed." Now tell me, in the great cities where many humorous papers are published, how many "woodsheds" are there? Why, a New York or Philadelphia cat would fall dead of exhaustion hunting for a "woodshed." People burn coal in these days. And they don't keep it in a "shed" in the cities. They know better. They load it up in the cellar. But, although there may not be one "woodshed" in the entire corporation, yet to save his undying salary, the humorist, when he writes of cats, cannot refrain from allusions to the woodshed roof. He can't help it. So, you see, if you are at all of a trusting nature, he deceives you.

What do you I sometimes make the same allusions in my cat articles?

Well, I should hope I did, every time! Bless your simple soul, do you suppose I would go back on the hoary traditions of the profession? Why look here, maybe you don't know who I am! Lean over and I'll just whisper in your ear; I don't want it to become generally known:

I am the "leading American humorist," all others are imposters.

ARDMORE, Pa.

For Murderers: Hanging or Electricity?

Here is an old idea, and a very good one, appearing once more:

The subject has come up again by Gov. Hill, of New York, asking if "science of the present day cannot provide a means of taking the life of such as are condemned to die in a less barbarous manner?" To which The Electric Review replies: "What more scientific method can be devised than the application of electricity as an executioner? Persons who have read the series of interviews with electrical experts which have recently appeared in this journal (The Review) must have observed that an electrical current of 1,000 volts is considered the maximum which the human system can receive without fatal results, whereas the wires which feed the lamps with which our streets are lighted carry a current of 2,302 volts. How simple a process it would be to connect the place of execution in the Tombs with the system of electrical street illumination, so that electricity could be made the executioner of murderers! The criminal would be placed in a chair, with his head bound back against a bulb at the end of the wire through which the fatal shock would be communicated, and it would be possible to furnish the death seat with an automatic attachment, so that the execution could be effected at a given moment by the action of a clock-like apparatus, and without the least movement of the hand of the officer charged with the infliction of the death penalty.

"What more scientific method than the one here proposed can be devised? Death would be instantaneous and perfectly painless, while at the same time the awfulness of the penalty thus inflicted would be profoundly impressive."

Ingersoll on Blasphemy.

In a recent lecture Col. Ingersoll gave this as his idea of real blasphemy: "To live on the ill-paid labor of others; to destroy the liberty of man; to prevent the growth of the human mind; to pollute children's minds with the dogma of eternal punishment; to defend slavery and polygamy; to wage wars of extermination; to appeal to brute force; to excite the prejudice of ignorance and superstition; to slander a fellow man; to abuse wife and children; to add in any way to the sum of human misery."

AT ST. PAUL

Travellers have a choice of routes. Passengers arrive in and depart from the Union Depot, thus avoiding the expense of transferring baggage. The several routes to Chicago Milwaukee and all points, are

The famous Albert Lea Route.
The great Rock Island Line.
The Chicago, Milwaukee & St. Paul.
The Chicago and Northwestern.
The Royal Route.

The distance from St. Paul to Chicago is about 450 miles. The trip is made in 15 hours. Trains leave each city in the morning, mid-day and evening.

"NIAGARA FALL ROUTE."

Is the Name by which

The Michigan Central R. R.

Is universally known because (1) it is the only line out of Chicago running its trains via the Niagara Falls, giving passengers a full view of that world's wonder; (2) it is the only line between those two points and Buffalo under one management. Through express trains are run as below, offering to all classes of passengers more and better accommodations than any other line:

REMOVAL!

THE TIMES' Office has been removed to Mr. Langley's building, Yates street, second door from Mr. Frank Campbell's corner, the premises formerly occupied by the British Columbia Express Company, which have been fitted up specially to meet the requirements of the rapid increase in the business of THE TIMES Printing and Publishing Company.

CITY AND PROVINCE.

—The total export of coal from Nanaimo, for May, was 23,575 tons.

—Lingo bandages will be acceptable at the Royal Hospital.

—Mr. Drake, in a letter in to-day's TIMES, says he won't resign.

—Mr. Wm. Fortune has opened a lumber yard at Eagle Pass.

—The Olympian brought freight for Oppenheimer Bros., T Earle, W Le Balister, McQuade & Son.

—Mr. John Morley will find this information he asks for through the Colonist by consulting our advertising columns.

—Wm. Brown, now in prison at Kamloops, for murdering Mary Purcell in the early part of last month at Farwell, will be tried at the latter point on the 2nd July, a judge going there to hold court.

—The regular monthly meeting of the Victoria Athletic Club will be held this evening at eight o'clock.

—Mr. Wm. Halpenny, Government Guide, will leave for Alberni to-morrow morning, via Nanaimo.

—An orchestran was raffled by Mr. H. Knight at the C.P.R. saloon on Saturday evening, and was won by ticket No. 200, held by Mr. Knight himself.

—Mr. Geo. Shillito, of Nanaimo, has lost three children within a month. The funeral of the last one, a daughter, took place on Wednesday last.

—The correspondence with the Government of British Columbia and Imperial Government, in relation to the eastern boundary of this province is to be published.

—The death is announced at Nairn, Co. Middlesex, Ont., of Mr. Donald Ross, father of Mr. A. W. Ross, M. P., for Lisgar, Man. Mr. Ross resided in Nairn since 1832 and was held in high esteem by a wide circle of friends and acquaintances.

—Within the past few weeks a strike has been made on Finley Creek, about ten miles from Columbia Lakes, in the Kootenay country. Rumor says that the miners are making from $5 to $7 a day. There are some ten or twelve white men and about thirty Chinese on the creek at present and the winter is very high.

—The return to an order passed by the Senate, showing the postal revenue at Victoria, B. C., from all sources, specifying the amount from each source, month by month, for the eight months included in the period 1st July, 1884, to 28th February, 1885, is to be printed.

—A rumor comes from Kootenay that Col. Baker has purchased the Messrs. Galbraith's place at Joseph's Prairie, together with his property and work animals. The Colonel had previously taken up eight hundred or a thousand acres of land.

—The parliamentary printing committee has declined to recommend the printing of the correspondence between the Department of Justice and the inspectors or the warden of the penitentiary of British Columbia in regard to the suspension in whole or in part of any of the rules of said institution.

A copy of the Commission and the names of the Commissioners appointed to proceed to British Columbia to enquire into and report upon the Chinese difficulty in this country, the date of the Commissioners' engagement, the salary or other allowance paids them, and the amount of traveling and other expenses up to the 1st February, 1885, is to be printed for distribution.

Kamloops Assizes.

The court opened on Monday last, Hon. Justice Walkem presiding. Mr. G. B. Martin was foreman of grand jury. In the case against George Bratton, who severely stabbed the bridge foreman, was sentenced to the penitentiary for five years. John Weber, charged with rolling a cask of brandy away from Mr. Mara's store, was acquitted. One Chinaman received two years in the penitentiary for stealing pork, another received a like penalty for housebreaking, and still another the same length of time for robbing hen roosts. Mr. W. Fortune, who had been placed on trial for killing cattle belonging to Messrs. Cooney, Trounce and G., after a lengthy trial, was found not guilty.

School Trustee Election.

Messrs. William Dalby and Coote M. Chambers have consented to become candidates for the positions of school trustees for Johnson street ward at the forthcoming election for the ensuing year.

Mr. Robt. B. McMicking has likewise announced himself as a candidate for the position of school trustee for James Bay ward.

Mr. James Fell, it is understood, will be a candidate for the representation of Yates street ward at the school board for the current year. Mr. Fell has occupied the position of trustee for many years and has devoted much time to school matters and the perfecting of our system. He has used his best efforts to keep sectarianism and politics aloof from school affairs. He has noticed a great change in the interest manifested in school matters since his first election as at that period there were but three or four votes recorded.

The Late Mrs. Cameron.

The funeral of the late Mrs. Charles M. Cameron took place to-day at 2 p. m. The large attendance was an evidence of the esteem in which the deceased lady was held. The services at the Methodist church were very impressive. The pallbearers were Messrs. F. H. Adams, Sydney Wilson, R. H. McMillan, Richard Hall, John Partridge, Fred. Norris, John F. Fee and J. Hughes.

Annual Meeting.

The Young Women's Christian Temperance Union will hold their annual meeting on Monday evening 15th inst., at the Temperance hall, commencing at eight o'clock. Reports of the years' work will be read by the different officers and superintendents, and some interesting addresses will be given. Good music will be furnished by the choir and a most interesting meeting is anticipated.

POLICE COURT.

(Before Edwin Johnson, Esq., S. M.)

Suel Bates, charged with stealing one trunk, one box, and one sack of clothing, valued at $50, from the wharf, the property of Mrs. Fenwick. The information being sworn to Mr. Mills for the prosecution said that having since got possession of the goods they were willing that the matter should drop. In the conversation that followed it transpired that the prisoner, had arrived in the city from New Westminster a short time ago, in company with the woman, Mrs. Fenwick, and that he had taken the baggage away from the wharf against the wishes of the complainant. Remanded until Thursday.

John W. Mettleton and Thomas Moran, assaulting a Chinaman and taking from him a quantity of overalls. Both prisoners admitted that they had been "fooling" with the Chinaman, but denied that they had any intention of stealing. The magistrate said that apart altogether from the Chinese question, as long as they were allowed to remain in the country they were entitled to the same protection as white men. He believed that the prisoners did not mean to commit a theft, and would take the most merciful view of the case in his power. Each prisoner was fined $20 and $1.50 costs, or 14 days.

Ah Foo and Ah Choo—a Chinaman and woman—creating a disturbance on Fisguard street, by shouting and screaming. Officers Walker and Grant testified that the prisoners' noise might have been heard a mile off, and that a large crowd of Chinamen and white people had gathered on the sidewalk. The locality is frequented by Chinese prostitutes, and Ah Choo is believed to be the keeper of one of the houses. Prisoners explained that it was only a business squabble about the payment of a $5 account. Fined $5 and $1 costs.

PERSONAL MENTION.

Mr. and Mrs. A. Onderdonk are at the Driard, on their way east.

Major Rogers, of the C. P. R., arrived in the city to-day and is stopping at the Driard.

Mr. and Mrs. Hamilton, of New Westminster, arrived in the city to-day, and are stopping at the Oriental.

Mr. M. J. Carkeek and wife, of New Westminster, are in the city.

Mr. E. Deville, Surveyor-General, has gone east, to Ottawa, via the Eagle Pass road and the C. P. R.

Mr. and Mrs. R. J. Russell returned from Nanaimo to-day by the Amelia.

Mr. and Mrs. Hirst, of Nanaimo, arrived in the city to-day.

W. B. Townsend, New Westminster, is in the city.

Mr. George Whitehead, for many years chief clerk in the Queen's and Grand Union hotels, Winnipeg, arrived by the Olympian to-day.

Messrs. Fred and John Brown, sons of the late city clerk of Winnipeg, arrived in the city to-day from the east.

Col. Stevens, U. S. Consul, paid a visit to Esquimalt this morning and was received on board the Constance with the customary salute of seven guns. The Col.'s visit was a very pleasant one. In the afternoon he had the honor of accompanying Senator Sherman and party to Esquimalt to visit the men-of-war and naval yard.

MARINE NOTES.

The Boscowitz is due from the north.

Crown Attorney Irvine is at present at Clinton, attending Court.

The Amelia arrived about 3 o'clock, bringing a large number of passengers.

The Olympian arrived at 10:30 and left again at 2 p.m.

The Eliza Anderson brought a large number of passengers and considerable freight to-day from Seattle.

The British bark Ella Stader was probably a mirage seen by a reporter hard pressed for an item.

British ship Albion, 1256 tons, Capt., Passmore, Capt. Angus McAllister, pilot sailed from Victoria to the ballast ground, Hastings mill, Burrard Inlet, in 22 hours. This was done under sail.

The bark Spartan has finished unloading and will leave to-night for Nanaimo in tow of the Alexander to load coal for San Francisco.

The Geo. E Starr has been chartered by Gen. Miles to convey Senator Sherman and party up the Sound to Victoria. She will touch at the various points of interest en route.

The Hog Thieves in Prison.

The prisoner Elliott, who attacked gaoler Hutchinson on Saturday last, by striking him several times in the face, has been placed in solitary confinement, double-ironed and put on bread and water for six days. For this piece of insubordination the penalty is a severe one, and if acquiesced is taken of it at the assizes, as is quite probable, the prisoner will find that the offence is even a graver one than that for which he is now awaiting his trial. Gaoler Hutchinson does not feel disposed to press the matter to an undue length; but the Attorney General will scarcely allow such a flagrant breach of discipline to go unrebuked. In the meantime Elliott is meditating in solitude, and probably has come to believe by this time "that the way of the transgressor is very hard." Both Elliott and Davy take their incarceration with very bad grace.

Scrip Brokers to the Fore.

A Calgary report announces that the half-breed commissioners have returned from Fort Macleod and will hold an extra sitting there. The half-breeds have been selling their scrip to scrip brokers. The number of half-breeds under the influence of liquor gave rise to the report that the scrip buyers had got them drunk, but this has turned out not to be the case, and the scrip brokers are indignant at the accusation.

Improvement in Traveling.

A tourist can leave Victoria on Wednesday morning and proceed to Farwell arriving at the latter place in four days, and if the steamer "Kootenai" should be on hand can travel via the Columbia river to Colville, and Spokane Falls, thence by the N. P. R. to Tacoma, and again by steamer to this city, in four days more, making the round trip in eight days.

VOICE OF THE PEOPLE.

(While the columns of THE TIMES are open for the discussion of questions of public interest to correspondents, it must be understood that it does not necessarily endorse, nor coincide with, the sentiments expressed by writers in this column.)

Mr. Drake and the Electors.

TO THE EDITOR OF THE TIMES:

SIR,—A report appeared in your paper of a meeting of the Anti-Chinese association, at which a resolution is stated to have been passed requesting me to resign my seat, because my firm were alleged to have been engaged on behalf of the Chinese to test the validity of the Chinese Regulation Act. As I have received no other intimation of this resolution, I take this means of replying to the same, and beg to state that I have no intention of complying with the request of these gentlemen, as by so doing I believe I should be neglectful of the duty which I owe to a large number of other persons equally entitled to consideration as the voters who are members of the association; and however much I sympathize with the endeavours of these gentlemen to check the Chinese evil, there are many questions involved which do not appear to have entered into the consideration of those who assented to the resolution. It appears to me that when grave questions are raised as to the validity of an act, the sooner the questions are settled by a competent authority the better, and in this instance very important provincial industries are affected, and it is a matter of very small importance what legal firm assists in arriving at a definite result.

Your obedient servant,
M. W. TRAVITT DRAKE.

THE KWRA TUYA

Or Japan Current—The Ocean Temperature—An Interesting Inquiry.

A gentleman named C. B. Bayster, Charlottetown, P. E. I., is preparing a paper on the propagation of the lobster, which valuable fish seems to have its home in the numerous bays of the gulf of St. Lawrence. He proposes to submit whatever evidence he can procure as to the probability of success in an attempt to propagate it on this coast, and some time ago wrote to Capt. Pittendrigh, of New Westminster, for information respecting the temperature of the Japan current, which strikes this Northwest coast, and is the cause of our mild and genial climate. Capt. Pitteodrigh, not having any statistics on the subject, referred the question to Capt. Devereaux, of the Sir James Douglas. That officer, in replying, said there was a great lack of reliable information on the subject, owing to the want of a thoroughly organized scientific survey, and the comparatively recent time this coast has been settled, not much attention has hitherto been given to the subject. Some years ago Capt. Devereaux found the Kwra Tuya, or Japan current, at the south end of Kensin and near the Loo-Choo islands, in lat. 30 deg. N., and long. 130 deg. E., to be from 80 deg. to 84 deg. Fahrenheit; thence he traced it eastward, varying downward from 70 deg. to 60 deg. in lat. 50 deg. N. and long. 130 deg. W., where the depth would possibly be 900 fathoms—and there the stream was distinctly marked with dividing or partition walls and abrupt changes in temperature. Where these waters go or what course the currents take after reaching the course, is a problem not yet solved. Capt. Devereaux's opinion is that they disperse and are diffused all over the coast of British Columbia and Alaska, and thereby raise the atmospheric temperature. The bank of soundings extends from the boundaries of Alaska to Cape Flattery, in Washington Territory, a distance of over 500 miles, and varying from 12 to 45 miles off shore. These banks are more or less the abode of deep sea fish, and along their outer edges the fur seal feeds in the spring and part of summer, and then disappears. The captain says that in all his experience over these banks, and in the inland waters and inlets, of which there is a coast line of 7500 miles, he has never found the temperature of the water, at from two to four fathoms below the surface, less than 44 deg. Fah., and sometimes as high as 50 deg. with the thermometer in the open air at 16 deg. Fah.

The Dodd Estate.

The valuable real estate properties, known as the Dodd estate, have been apportioned by lot to the heirs and owners of shares. The property is valued at about $150,000, and has been awarded as follows: The lot and buildings on Government street, occupied by Garesche, Green & Co., and W. & J. Wilson, to Mrs. Williams and A. A. Green. The Kurtz block, 60x240 feet, same size as former lot, to Charles Dodd and part of the Douglas street property, comprising lots 672, 673, 689, 688, and 687 to E. J. Dodd. Another portion of Douglass street property comprising 691, 690, 674, 675 and 676 to A. Rickman. The Strawberry hill farm, 500 acres, and the Gordon Head Farm of two hundred and seventy acres, to Dr. Ash. For the purpose of equalizing values, a sum of money, about $3000 in each instance, will be paid by the owners of the more valuable properties on Government street to the owners of the Douglas street properties. The distribution, which was made by lot, is satisfactory to all concerned.

Distinguished Visitors.

A distinguished party of Americans arrived at noon to-day by the Starr from the Sound. They were met at the landing by Col. Stevens, U. S. Consul, and driven to the residence of Lieut.-Governor Cornwall, where they made a brief stay, and from thence to Esquimalt, where they boarded H. M. ships. Here they were hospitably entertained by the officers. Thence they visited the naval yard. A drive was then taken around the city's environs. The party expressed themselves as delighted with all they observed. At 7 o'clock this evening they are to partake of dinner at the Driard, which doubtless will be a first-class affair. Amongst the prominent visitors are Senator John Sherman, Chas. F. Adams, President of the Union Pacific railway; Gen. Miles, Commander of the Department of the Columbia; Gen. Sprague, of the Northern Pacific railway, Tacoma; Mr. Dodge, of the O. R. & N. Co.; S. R. Calloway, Manager of the Union Pacific railway, and others whose names we did not learn. They leave for the south again this evening.

A Chinaman's Revenge.

At Grand Rapids, Mich., on the 3d inst., Sam Lung, an aged Chinaman, called at Chas. Love's saloon, and had a glass of beer and refused to pay for it on the ground that Love's son Allie owed him for laundry work. An altercation ensued, and the Chinaman was pushed out. He turned and broke a vile compound in Allie Love's face. The latter was taken sick in less than two minutes with convulsions. A canvasser of rubber stamps happened in, saw the trouble, and at once procured an antidote, which undoubtedly saved the life of the young man, though he is still very weak and the pupils of his eyes are distended. Two doctors called, and said they would not have known what antidote to have given. Lung will be arrested on a charge of assault to kill. The fumes made every one in the room sick. It was a compound of poison known only to Chinese and Japanese.

BRANDON TO VICTORIA.

A Traveler by the Canadian Routte Tells His Experiences En Route.

Mr. Hanson, who came through on the Canadian Pacific Railway, and is now stopping at the Oriental, gave THE TIMES some interesting particulars about his trip. He has been living at Turtle mountains, Manitoba, and comes to British Columbia to get a better climate. He started from his home on the 26th April last, and walked ninety miles to Brandon to get on the C. P. R. express. The ticket to Calgary the farthest point to which he could buy one, cost $30; and the run of 900 or 1000 miles was through as fine a farming country as there is in the world. Many fields of 500 acres of growing wheat were passed on the way. After leaving Calgary, the Rocky Mountains were entered.

SCENERY AT THIS POINT WAS SUBLIMELY GRAND.

On either side of the track is rock and timber, the latter mostly composed of pine and fir and cedar. Mr. Hanson estimated that he must have passed through four hundred miles of this sort of timber. The first crossing of the Columbia is a lively little place, where our traveller had his valise stolen. The next point reached was the Beaver, which was nearly all on fire, and where fallen trees made it dangerous to pedestrians. From this point to

FARWELL, AT THE SECOND CROSSING,

the distance of 95 miles was walked and over one of the roughest tote roads in the province. The journey occupied four days. A boat is run to this point from Fort Coldwell, in Washington Territory, but it will not carry passengers, so Mr. Hanson had to walk to

EAGLE PASS LANDING,

forty-seven miles, by a road on which there are four lakes to cross; three of which are from one mile to two hundred yards long. The fares for ferrying are 50 cents, $1, $1.50 and $2 respectively. At Eagle Pass Landing the boat was taken to Savona's Ferry, a distance of 90 miles, leaving at 8 p. m. and arriving at 3 a. m. next day. Enquiring at the building, called a station, what the fare is to Yale, Mr. Hanson was told that it was

$18 FOR THE 127 MILES,

and he concluded to walk, as he "could not see the fun of paying so much for four hours riding on the cars. The distance was made in four days and a half, and $10 in cash was saved.

ARRIVING AT YALE,

the remainder of the journey to Victoria, was accomplished by steamer, care being taken to leave the railway alone wherever other means of locomotion could be secured. Mr. Hanson is much pleased with the climate of British Columbia, and proposes returning to the mainland, where he will enter upon the cultivation of fruit on a large scale. The market east of the mountains will, he believes, afford a remunerative market for this product for many years to come.

FINDING THE LONGITUDE.

Mr. Klotz now in Seattle—How the Longitude is Found.

Mr. Otto J. Klotz is now in Seattle and has established a temporary observatory on Mrs. Plummer's lot. The longitude of Seattle was established in 1871 by the Canadian Coast and Geodetic survey, and was found to be 122 degrees, 19 minutes, 58.74 seconds west of Greenwich meridian, or expressed in time, 8 hours, 9 minutes and 19.96 seconds. A monument was erected at that time by the party making the determination. This has been obliterated by the grading of the street but by means of a witness post remaining and from the records the location can be determined. Mr. Klotz has one assistant, who is now at Victoria. As soon as the nights are favorable he will ascertain the longitude of that place. The determination of the longitude of a place is made by means of telegraph very accurately as follows: Some place whose longitude is known is made a base station. From this point, as from that whose longitude is wanted, observations of the transites of certain stars are taken, and the times of the transits carefully noted by a chronometer. The astronomers then go to the telegraph officers at their respective stations and compare the times of the transits by means of telegraph. The difference in time between the base station and that whose longitude is desired is ascertained and verified by frequent repetitions of comparisons. Having ascertained once accurately the difference in time the determination of the longitude becomes a mathematical matter of easy accomplishment. Mr. Klotz will ascertain, after having found the longitude of Victoria, that of Kamloops, which he will make the base station for determining the longitude of points in British Columbia. The purpose of this work is to obtain the accurate location of points to which to refer land surveys hereafter to be made by the Canadian government.
